

Twenty Four Hour... Signal & Power

System 9

Add-on unit for *Bluetooth*® hands-free car kits

Optimum connection with your dialogue partner thanks to **external antenna**

Unlimited talk time in the vehicle thanks to **charging function**

For fixed installation or **flexi install version via cigarette lighter plug**

Convenient and **secure placement** of mobile phones

A broad range of mounting options, e. g. on the Window Mount – flexible and removable

Patented: **quick and easy snap-in mounting** of the cradles

¹External antenna is required

²Accessory

System 9

The **System 9** is "the" extension for *Bluetooth*® hands-free car kits, which do not independently support the use of an external antenna or the charging function of the mobile phone battery. The components of the **System 9** are designed for *Bluetooth*® hands-free car kits of all manufacturers.

The principle

1. Fit the **BURY BasePlate** holder in the car.
2. Click the mobile phone holder into the **BURY BasePlate**.
3. Simply place your mobile phone into the holder, insert the **BURY ChargingCable** if required and you'll always be able to make calls with a full battery.

Base unit

BURY BasePlate

The basic system hardware allowing multiple combinations either as a permanent installation or flexible install via the cigarette lighter plug.
